2020-2021 POP & LOCK AMAZON POLICY

Pop & Lock continues to be committed to upholding our Minimum Advertised Price (MAP) Policy across all traditional and ecommerce based selling channels to ensure a fair and protected market for all.

Due to the unique MAP enforcement obstacle on Amazon, we are restricting the sale of Pop & Lock product to a very limited number of authorized Amazon sellers to maintain brand integrity. These dealers may continue to buy/sell Pop & Lock product direct from and or through authorized distribution.

No sale of Pop & Lock products on Amazon is authorized unless approved by Pop & Lock first. If seller violates this policy, a complaint could be filed to Amazon against the account and/or could be added to a "Do Not Sell List".

Please contact our customer service team for all inquiries.
