Installation Instructions
Model PL3010
2007-2018 Jeep Wrangler JK Locking Fuel Door
w/Combination Lock

Reset code before lock installation!

Step 1: How to Reset or Code Combination Lock

1. Combination should be set to default code of (7-7-7)
2. With the default or last code set and in the unlocked state, insert combination tool into hole on the bottom of lock and press reset button.
3. While holding the reset button in, set the new 3-digit combination code and then release button and remove tool.
4. Test lock for proper operation.

Step 2: Remove left taillight using Philips head screw driver.

Step 3: Disconnect the taillight electrical connector and place aside the taillight and screws for reinstallation.

Step 4: Remove the fuel cap and disconnect the fuel cap tether.

Step 5: Remove the fuel filler housing by reaching in through removed taillight opening and release the housing retentions clips while pulling the assembly from the outside.

Step 6: Remove rubber filler neck grommet from factory housing and install on the Pop and Lock fuel door housing. Be sure to notate the orientation of the grommet.

Step 7: Trim the correct unused locator pin so it is flush with the new housings plastic surface, file if necessary to get flush.

Step 8: Install the PL3010 housing while pressing the rubber grommet over the fuel filler neck.

Step 9: Line up the untrimmed locator pin with the hole in the sheet metal and continue to press the assembly into place while holding the filler neck in position.

Step 10: Check that all connecting clips clip onto vehicle sheet metal by pressing outward on the each of the clips.

Step 11: Reinstall the fuel cap and snap the fuel cap tether back into place.

Step 12: Reconnect the taillight electrical connector and reinstall taillight.

Step 13: Check that fuel door opens unimpeded and works smoothly.
